3. To overcome present problems and handicaps and effectively manage future problems that may result from the use and development of land and property;

5. To manage the orderly and efficient provision of adequate levels of public facilities and services necessary to support planned development;
6. To protect human, environmental, social, natural and economic resources;
7. To maintain, through orderly growth and development, the character and stability of present and future land use and development in the City.

9. To establish a system of fair, comprehensive, consistent and equitable regulations, standards and procedures for the review and approval of all proposed land development within the City.

**Revised November 1998**

**19.00.035 REGULATION OF WIRELESS COMMUNICATION FACILITIES**

This Title includes standards and procedures for the siting and approval of wireless communication facilities, including wireless communication antennas and antenna towers. In establishing those standards and procedures, it is the purpose and intent of the City Council to:

- A. Protect residential areas and land uses from the potential impacts of such facilities;
- B. Encourage the co-location of new and existing facilities when such co-location aesthetically enhances the City;
- C. Encourage the placement of such facilities in areas where the impact on the community is minimal;
- D. Encourage the configuration of such facilities in a way that minimizes the visual impact through careful design, placement, landscape screening, and innovative camouflaging techniques; and
- E. Ensure that facilities that have a significant impact will be removed when no longer used for communications.

**19.00.040 RELATIONSHIP TO GENERAL PLAN**

The adoption of this Title is consistent and compatible with and furthers the goals, policies, objectives and programs of the General Plan. It is the intent of the City Council that regulatory decisions made pursuant to this Title be consistent with the General Plan.

For purposes of this subchapter, “consistency with the General Plan” means not only consistency with the Plan’s land use and density designations, but also consistency with all aspects of the General Plan, including those that promote compatibility of uses and densities, and orderly development consistent with available resources.

**19.00.050 EFFECTIVENESS AND APPLICABILITY****A. General**

If any such permit expires prior to completion, all future development shall be in conformance with the requirements of this Title.

**C. Transitional Provisions**

Notwithstanding any other provision of this Title, the Director of the Department of Planning and Development is authorized to delay the implementation of the procedural elements of this Title as necessary in order to effect a smooth, orderly and efficient transition from one set of zoning regulations to another. During this transitional period, if the Director determines in a particular case or class of cases that it is inefficient or inequitable to apply the substantive aspects of Title 19 in connection with the procedural elements of Title 19, the Director may elect to apply the substantive aspects of Title 19 as well.
